

**Mike Lach, P.E. –  
Secretary**

Mike Lach is a geotechnical engineer at CDM in Bellevue, Washington. He holds B.S. and M.Eng. degrees in Civil Engineering from the University of Central Florida and the University of Idaho, respectively. Mike has over 8 years of experience in ground exploration, geotechnical design and construction monitoring of tunnels, foundations, and retaining walls. He has extensive knowledge of finite element methods, as well as ground improvement, soil and rock mechanics, and groundwater flow.

When away from the office, Mike enjoys writing and recording music, playing complicated board games, and collecting and using vintage cameras.
